

Power Control Electro Systems Pvt. Ltd. is an ISO 9001 : 2008 company manufacturing Medium Voltage Switchgear from 3.3 kV to 36 kV since 2006 and exploring new horizons for over Ten years.

We are glad to inform you in presenting Epoxy products up to 36 kV from 3.3 kV to all customers of electrical domain; our product assortment is inclusive of Post Insulators & Epoxy Switchgear Components. The offered products are regarded for their durability, dimensional accuracy, and resistance towards high temperature, optimum tensile strength and seamless finish. These find wide usage in Medium Voltage electrical industries.

We are using Pressure Gelation Moulding Machines to manufacture components. Material of these epoxy products are made from carefully selected raw materials to give high Electrical and Mechanical values, properties & strength after moulding. These are available in Brown and Red colour to match aesthetics of equipment in which to be used.

We can manufacture Insulators, bushings; & variety of spout bushings, breaker bushing, etc..

• **Manufacturing Range of Epoxy Components:-**

Sr. No.	Description	Rating
1	Epoxy Insulators. Height :- 95 mm ; Dia.:- Ø 60 mm.	6.6 / 7.2 kV.
2	Epoxy Insulators. Height :- 130 mm ; Dia.:- Ø 61 mm.	11 / 12 kV.
3	Epoxy Insulators. Height :- 210 mm ; Dia.:- Ø 86 mm.	22 / 24 kV.
4	Epoxy Insulators. Height :- 300 mm ; Dia.:- Ø 70 mm.	33 / 36 kV.
5	Epoxy Housings & V. I. Supports.	6.6 / 11 / 22 / 33 kV.

• **Salient Features:-**

- | | | |
|------------------------|----------------------------|---------------------------|
| # Flawless. | # Long life. | # Easy to maintain. |
| # Fine finish. | # Sturdiness. | # Reliable. |
| # Rugged construction. | # Aesthetic look & Colour. | # Can be Custom Designed. |
